

Drywall Safety List

Your Safety Checklist

Before you start your next drywall project, run through this quick safety checklist:

- N95 or better respirator
- Safety glasses with side shields
- Work gloves with good grip
- Steel-toed boots
- Long sleeves and pants
- Helper for lifting and positioning
- Ventilation plan (fans, open windows)
- Tools inspected and in good condition
- Work area checked for electrical and plumbing
- Stable work platform or lift for ceiling work
- First aid kit accessible
- Material safety information reviewed

Call us: 540- 421- 0222 for more information or questions. We're nice and happy to help.
